

3.2 VR Assessment

IL Specialists may be contacted to conduct an Independent Living Assessment for VR Consumers. To complete an IL assessment for VR, complete the [DHS-VR-228 Independent Living Assessment](#).

Remember that this is considered a separate service that VR Counselors will pre-authorize services for. They will send an authorization and the billing process for a VR IL assessment needs to be handled differently. The services cannot be added to Net-Cil to be billed as IL services. Case notes can be added to Net-cil but no time should be indicated in the system as time spent on services. The IL Specialist can document inside the case note how much time was spent conducting the assessment and to justify the payment, and the services need to be billed to VR on an invoice using CIL letterhead.
